## And The Music Plays On

KAUR, the "listening alternative for Sioux Falls," had quite an eventful year. Station Manager Lee Axdahl would attest to the fact that the station's biggest achievement this year was the move to the fourth floor of Old Main. The audio facilities were notably improved to provide listeners with a better sound experience. The station involved a large number of students due to an expanded music schedule, full sports coverage for campus athletic events, nightly news, and the radio shows such as Dr. Demento. Lee and his staff would agree that it was a successful year.

Sue and Ginger act as co-anchorwomen for the evening news.
